

Dear ISTernship Admissions Committee,

I highly recommend Sajjad P. Savoji as a candidate for IST summer internship. He has served as my research assistant in his capacity for one year through which I have watched him develop into a confident and capable leader that's why I believe given appropriate chance, Sajjad can be positively impactful both in academic and social aspects of your institute.

Sajjad is extremely responsible; not only does he meet the deadlines, but, In situations that he could not he always informed me in advance. Speaking of his academic skills, he does a great job in data analysis. In our first collaboration he did a statistical inference task for one of my papers, even though he did not hold the academic certification at that time, the result was remarkable.

In conclusion, I would highly recommend Sajjad for this academic internship program. If his performance in my research is any indication of how he will succeed, Sajjad will be a positive addition to the program. If you should need any additional information, you can feel free to contact me by email at babakhani@riau.ac.ir anytime.

Sincerely,

Narges Babakhani

Professor at islamic azad university roudehen branch
